

SUBJECT: The American Osteopathic Association (AOA) Exercises Caution When Considering Certification Changes

SUBMITTED BY: ACOFP Board of Governors

REFERRED TO: 2019 ACOFP Congress of Delegates

---

RESOLUTION NO. 26

- 1 WHEREAS, the American Osteopathic Association (AOA) is one of two deemed certifying bodies for physicians; and  
2 WHEREAS, the AOA certifies many different specialties; and  
3  
4 WHEREAS, certification is now an ongoing, continuous process throughout a physician's career; and  
5  
6 WHEREAS, once a physician becomes certified, it is likely for that physician to continue certification with his or her  
7 certifying body; and  
8  
9 WHEREAS, the various specialty certifying boards are most likely the best informed regarding their candidates' desires  
10 in relation to their needs regarding certification; and  
11  
12 WHEREAS, each specialty has its own unique needs based on its own practice parameters and job task analysis; and  
13  
14 WHEREAS, it is not reasonable to approach each specialty as if it was the same as all other specialties; and  
15  
16 WHEREAS, the Bureau of Osteopathic Specialists (BOS) is to be the oversight bureau for certification; and  
17  
18 WHEREAS, the BOS needs to function as a full body and not a validating group for the BOS Executive Committee; and  
19  
20 WHEREAS, certification is a physician issue and not a staff issue; and  
21  
22 WHEREAS, physicians are the major stakeholders in certification decision outcomes; and  
23  
24 WHEREAS, there is an ongoing concerted effort to develop a universal approach to certification for all specialties; now,  
25 therefore, be it  
26  
27 RESOLVED, that the American Osteopathic Association (AOA), as the certifying entity, move more cautiously with  
28 sweeping changes in certification process; and, be it further  
29  
30 RESOLVED, that the full body of the Bureau of Osteopathic Specialties (BOS) needs to have open and valid discussion of  
31 any changes in certifications; and, be it further  
32  
33 RESOLVED, that the American College of Osteopathic Family Physicians (ACOFPP) urge the AOA Board of Trustees to  
34 become actively involved in true discussions with the certifying boards before adopting changes in the  
35 certification process; and, be it further  
36  
37 RESOLVED, that the ACOFP forward this resolution to the AOA House of Delegates.

**FINAL ACTION: The Resolution is WITHDRAWN as of March 20, 2019.**

**Explanatory Statement: The content is covered in Resolution 29.**
