2017 POSTER PRESENTATIONS
GAYLORD PALMS RESORT & CONVENTION CENTER
KISSIMMEE, FLORIDA

The ACOFP Osteopathic Clinical Research (OCR) Committee would like to invite you to participate in The Richard J. Krejsa, DO, FACOFP dist. 2017 Poster Presentations during the ACOFP Annual Convention & Scientific Seminars at Gaylord Palms Resort & Convention Center on March 16-19, 2017. The Committee encourages the diverse involvement in Students, Residents and Practicing Physicians.

INSTRUCTIONS FOR SUBMISSION OF ABSTRACTS

Read the instructions below before you begin laying out your Abstract. The highest degree of the Authors must be listed on the application. Please include a statement confirming that the study has been approved by the institution’s Institutional Review Board (IRB). This is required for posters and papers involving research with human subjects and is expected at major conferences and journals. Your submission will be rejected if the IRB statement is not included.

There are two DEADLINES:

- **NOVEMBER 30, 2016** - If the application/abstract is received before November 30th and the committee does not accept, you will have one opportunity to revise the abstract as suggested by the Committee with a revised due date.

- **DECEMBER 15, 2016** - If application/abstract is submitted after November 30, 2016, the abstract will either be accepted or rejected with NO opportunity to revise.

There will be NO late applications/abstracts accepted. The OCR Committee will review abstracts as they are submitted. You will be notified asap within 3 weeks if the abstract is accepted.

All Abstracts are to be submitted as “camera ready” text for the publication in Osteopathic Family Physician News, ACOFP’s monthly journal. Abstracts which do not meet the requirements stated below will not be accepted. All approved Abstracts will be presented in a poster format.

You are required to submit the completed 2017 Application/Abstract formatted properly or it will be rejected. *(If you use the recommended template, this is set up for you)*

To submit your application/abstract login to the acofp website, click application, enter your username (AOA#) & password (your lastname 2002, ie: smith2002) **Do not submit application for someone else!** If you need assistance, call Judy @ 847-952-5106.

*The committee recommends for students/residents, that your faculty mentor review the abstract prior to submission for accuracy.*

The OCR Committee will review abstracts as they are submitted. You will be notified asap within 3 weeks if the abstract is accepted.
CRITERIA FOR EVALUATING ABSTRACTS

Below you will find the criteria for the evaluation of Abstracts:

- The information presented in the Abstract must be original, not a duplicate, and not published previously.
- Each Abstract must contain the elements described in Appendix A for Case Reports or Appendix B for Original Research Study. The elements must be clearly stated.
- The Abstract must be submitted through a medical organization or ACOFP recognized organization, and should be authored by at least one osteopathic physician or full-time faculty member from one of the colleges of osteopathic medicine. The Presenter must be the First Author to participate in the prize competition. Each poster should be carefully reviewed by the student/resident faculty mentor prior to submission for accuracy, clarity, and format. Faculty may not present posters in the student/resident competition.
- Generic names for drugs should be used.

INSTRUCTIONS FOR PREPARING ABSTRACTS USING WORD PROCESSING PROGRAMS

The committee recommends using the Abstract Template provided on the website (Word.doc file) (all of the formats are done for you and it prompts you to enter your data) you may save the template to your computer. When submitting the abstract, the filename should be the applicant’s Last name.

Page Setup

The dimensions of the printed Abstract must not exceed 5 1/2 inches width (horizontal dimension) and 8 inches length (vertical dimension). Set page margins on 8.5” x 11” portrait page to:

- Top margin = 1.5”
- Bottom margin = 1.5”
- Left margin = 1.5”
- Right margin = 1.5”

Heading

Include a heading at the top of the Abstract containing the following elements in the order stated. Remember that the heading and text of the Abstract must fit within the parameters in Page Setup above.

A suggested checklist for writing a case report abstract:

TITLE
• Should facilitate interest in the topic and should be searchable.

INTRODUCTION
• Describe whether the case is unique.
• Does the case have an unusual diagnosis or clinical course?
• Describe how the case contributes to scientific knowledge.
• Describe the instructive or teaching points that add value to this case.

CASE SUMMARY
• Describe the presenting signs and symptoms and clinical course.
• Is the cause of patient’s illness clear-cut? What are other plausible explanations?
• What investigations were completed to sort out the diagnosis? Include them if important.
• Describe the treatments provided and the rationale.
• Were other therapeutic options considered? Are outcomes related to the treatments provided?

DISCUSSION
• Report on literature review of other similar cases. Describe how this case is different.
• Explain the rationale for reporting the case. What is unusual about the case? Does it challenge prevailing wisdom?
• In the future, could things be done differently in a similar case?
• What educational pearls can be gleamed from this case?

NOTE: The format of the abstract and poster must include the headings (i.e., title, introduction, etc.) listed above.

Poster References: Maximum of 10 (should not be on abstract)
Maximum number of Authors: 5
Heading and Page Setup: Refer to above abstract and poster presentation instructions
(If you use the recommended template, this is set up for you)

A suggested checklist for writing a research abstract:

TITLE

• Should facilitate interest in the topic; be short, descriptive and searchable.

BACKGROUND AND HYPOTHESIS

• Background: In one or two sentences describe why the topic investigated is important (i.e., novel approach; does the study fill knowledge gaps?).
• Hypothesis: In one or two sentences describe the specific question that was addressed in the study or the relationship that was investigated.

METHODS

• A summary of the methods used to design and carry out the study.
• State the type of design (i.e., randomized controlled trial, double blinded, survey).
• Include the clinical circumstances (i.e., primary care center, general community).
• Brief description of key subject inclusion/exclusion criteria
• Include the total number of subjects recruited and how many were in each group of the study (i.e., control group, study group).
• Description of any intervention administered (i.e., OMT, medications)
• Brief description of the study’s outcome measures (i.e., symptom scores, measurements).

RESULTS

• Report a brief summary of the main findings in the study. Include explanations of key measurements.
• Include relevant statistical information (i.e., confidence interval, odds ratio, levels of significance such as p value). Simple percentages are not sufficient.

CONCLUSIONS

• Explain the overall significance of the study that is supported by the results obtained.

ACKNOWLEDGEMENT OF RESEARCH STUDY SPONSORS AND IRB

• Include an acknowledgment of the study sponsors and any grants received for the study
• Must include Statement that IRB approval was obtained

NOTE: The abstract and poster format must include the headings (i.e., title, background, etc.) listed above.
